

REMARKS

In light of the Advisory Action dated August 23, 2005, in which the Examiner indicates that the claims do not require an interpretation of "an image of the defect" to mean only "the actual image of an extracted defect", by the amendment in the RCE, the claims have been amended to recite an "actual" image of the defect being displayed together with location data as described in the specification of this application. Applicants submit that such features are not disclosed or taught in the cited art for the reasons set forth in the Amendment filed August 4, 2005 which is incorporated herein.

In view of the above amendments and remarks, applicants submit that all claims present in this application patentably distinguish over the cited art and should now be in condition for allowance. Accordingly, issuance of an action of a favorable nature is courteously solicited.

To the extent necessary, applicant's petition for an extension of time under 37 CFR 1.136. Please charge any shortage in the fees due in connection with the filing of this paper, including extension of time fees, to Deposit Account No. 01-2135 (501.41125X00) and please credit any excess fees to such deposit account.

Respectfully submitted,
